

New Lighting Tool Floatline

Optimum lighting quality in slim design

Floatline

The new Floatline luminaire system. Optimum lighting quality in slim design for high, large-area salesrooms.

With Floatline, Ansorg provides an economical, linear suspended luminaire system that was developed specially for high-walled salesrooms covering a large area. Floatline impresses with its slim design with a profile height of only 60 mm. Gimballed profile spotlights fitted with efficient HID lamps are integrated without a frame into the closed system and ensure flexible and brilliant illumination of the merchandise. Due to modern reflector technology, Floatline can also be used with low wattages.

Floatline is suitable in particular for use above counters, promotional activity areas and traffic zones. The system is predestined for large food retailing supermarkets, but also for other retail areas such as, for example, car dealers or outlet stores.

Application advantages:

- > Aesthetic design by means of plain, closed design of all visible faces without any profiling at all
- > Frameless luminaire appearance supports the reduced use of shapes
- > Creation of an optimum mounting height in large-area salesrooms with open ceilings
- > Closed, ceiling-forming profile system with sufficient space to house the necessary ballast equipment

Floatline

- Lighting technology HIT/G8.5
- Lighting row system for ambient lighting, for suspended mounting
- Profiles with recessed spotlight, gimbal-mounted, tilting and turning
- Quick mounting of the individual profiles without the use of tools
- Design of the profiles in black
- Connection data: electronic ballast, 230-240V, 20(24)W, 35(42)W, 70(80)W

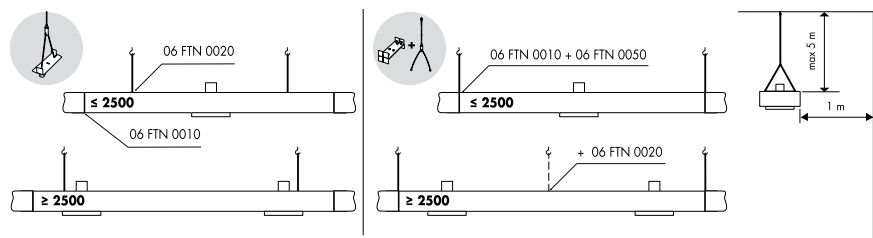

IP20

Profile	Description	Weight	Length	Article numbers
with recessed spotlight 1x Cardo CBI		3.5 kg	l = 1250 mm	06 FTN 6001-402
		4.1 kg	l = 1500 mm	06 FTN 6002-402
with recessed spotlights 2x Cardo CBI		6.9 kg	l = 2500 mm	06 FTN 6603-402
without luminaire		3.8 kg	l = 1500 mm	06 FTN 0002-402

Elements for mounting	Description	Article numbers
Suspension piece with 5m steel cable (shiftable)		06 FTN 0020
Butt connector		06 FTN 0010
Corner piece		06 FTN 0030-402
End piece		06 FTN 0040-402
5m steel cable, 1 piece (for direct suspension of butt connector, corner piece or end piece)		06 FTN 0050
