

Notes on product marking

Example: surface-mounted spotlight

The article number of the luminaire is found on the silver label, outside on the casing

Surface-mounted spotlight Boxx

Surface-mounted spotlight Brick

The **article number** (alpha numerical) of the product is always positioned in the bottom line, at the outside left.

The indication of the **wattage** is positioned in the bottom line (in this case 70 W).

Notes on product marking

Example: recessed spotlight

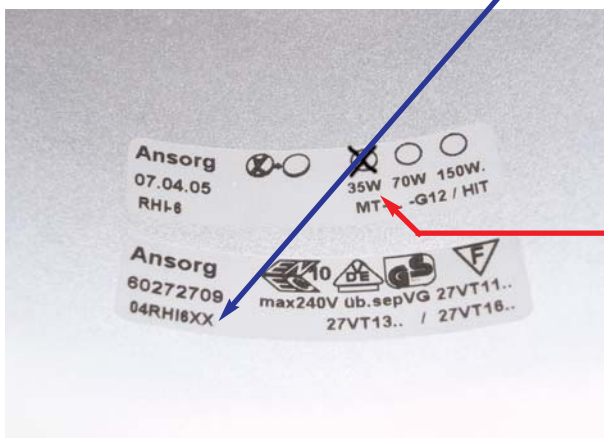

The article number of the luminaire is found on the silver label which is fixed in the casing in the case of recessed spotlights/luminaires.

For this purpose please remove the reflector (by turning or pulling, depending on the type of luminaire, see operating instructions of the products).

Recessed spotlight Punta

The **article number** (alpha numerical) of the product is always positioned in the bottom line, at the outside left.

The **wattage** is shown on a separate label (in this case 35 W).
